DANTINI DENTAL OF STAMFORD

Is one of the area's leading family-oriented practices.

We are the first in Stamford to use a dental laser, one of the first offices to use a Cerec (esthetic **single** visit crown), and one of the earliest adopters of digital x-rays.

Everything we do is geared toward gaining your complete satisfaction by providing you with the best care using the best tools available. We call it practicing "*The Art of the Smile*".

To *win* your smile, we make every visit as pleasant as possible. During treatment, we offer an extensive selection of movie videos and music CD's. Want to know more about the current state of dentistry?

Take advantage of our web site (www.Dentistdds.com), printed material and educational video information. For younger patients and visitors, we provide internet access and computer games for work or pleasure.

To *create* great smiles, *DANTINI DENTAL OF STAMFORD* is committed to using the latest technology and techniques to deliver every service that you and your family may need including restorative, reconstructive, periodontal and cosmetic dentistry. This commitment also means that we are strongly invested in the latest pain management techniques, cutting edge equipment and the most current cosmetic imaging. In "*The Art of the Smile*" our total focus is on maximizing patient convenience, comfort and satisfaction.

If you are new to the Stamford area or are considering changing dentists, visit us at *DANTINI DENTAL OF STAMFORD*. We are located on 12 Camp Avenue, Stamford. Our staff of dental professionals will welcome you and set the stage for a long positive relationship. Please call us at 322-5397 or visit us on the web www.dentistdds.com

Dr. Peter Dantini, DDS is the inspiration and expertise behind **DANTINI DENTAL OF STAMFORD**. Since 1990, his relaxed professional style has created a warm family-friendly atmosphere for his patients and office staff. Dr.

Dantini is active in a variety of professional associations including the Academy of General Dentistry, and The American and Connecticut State Dental Associations. He is a staff member at Norwalk Hospital, Waveny Care Center and a founder of The Dental Center of Stamford. He is also the inventor of the Connecticut Bridge, a new technique for creating strong, invisible dental bridges.
